### TM1 CLASS OFFERINGS

---

#### TM1 End User

\$600 per person  
8 CPE credits

The TM1 End User course is designed to introduce the user to the front end TM1 application. The course instructs users on those aspects of the application to enable the front end user to become proficient with utilizing the Cube Viewer, Subset Editor and the Excel Reporting functions. Particular consideration is paid on the various methods for inputting data and cube view customization.

**Prerequisites:** Intermediate Excel or Similar Experience  
**Duration:** 1 Day  
**Level:** Beginner

While many users may end with this class, the TM1 End User class provides a needed foundation for all future courses and advanced users.

Upon completion, the user will be able to:

- Define the structure of TM1
- Modify and save cube views and dimension subsets.
- Input data, in particular using data spreads.
- Create TM1 reports in Excel.
- Utilize TM1 Web.

---

#### TM1 Developer

\$600 per person  
8 CPE credits

The TM1 Developer course builds on the user's knowledge of TM1 to provide the next steps in learning the Application. Users are introduced to several methods for creating the structural aspects of TM1, including dimensions, aliases and formatting. and cube construction. The remainder of the course displays many of the TM1 in Excel functions and demonstrates their usage within a custom report.

**Prerequisites:** Completion of TM1 End User or Other Practical TM1 Experience  
**Duration:** 1 Day  
**Level:** Intermediate

Upon completion, the user will be able to:

- Create new dimensions and edit existing dimensions.
- Create element attributes.
- Build a cube and utilize a processing worksheet to load data into the cube.
- Generate custom Excel reports using TM1 in Excel functions.

---

#### TM1 Administrator

\$600 per person  
6 CPE credits

TM1 Administrator training prepares the user with the procedures required to appropriately monitor, manage and maintain the TM1 Server. The course begins with an examination into the TM1 server and progresses through replications, the data files, backup and recovery procedures, and security.

**Prerequisites:** Completion of TM1 End User or Other Practical TM1 Experience  
**Duration:** 1 Day  
**Level:** Intermediate

Upon completion, the user will be able to:

- Define the TM1 System Architecture.
- Monitor the server and perform server maintenance and initiate data backup procedures.
- Modify the configuration and initialization files to customize users' TM1 access.
- Implement TM1 Security
